

NOR'WESTER THERAPY DOGS CANINE PARTNERS IN EDUCATION

~ GUIDELINES FOR BUILDING PRINCIPALS AND TEACHERS~

- ❖ Handler/Volunteers should wear or carry their personal Therapy Dog affiliation ID on every visit. These are provided by their certifying organization.
- ❖ Handler/Volunteers may NOT bring friends or visitors without first getting permission from the classroom teacher and principal.
- ❖ Cell phones and pagers may not be used and must be turned off or set to vibrate during their visit to a classroom. If the use of a cell phone becomes necessary, handlers are expected to excuse themselves and their dogs temporarily and complete the call outside the facility.
- ❖ Only approved and certified therapy dogs are eligible to participate in Nor'wester Therapy Dogs. They must wear an appropriate, approved collar and be on a leash at all times.
- ❖ The Nor'wester Therapy Dogs organization has guidelines in place to follow in the event of the death or illness of a visiting therapy dog.
- ❖ It is suggested that Handlers/Volunteers be accompanied to and from the classroom by a school employee.
- ❖ Encourage students to behave appropriately in the presence of a therapy dog. They should be urged to lower their voices, sit down, and be gentle during a visitation. These expectations should be set at the first visit.
- ❖ Children should not be encouraged or permitted to PLAY with a working therapy dog.
- ❖ Children or other school personnel are not permitted to FEED a working therapy dog.
- ❖ Handlers/Volunteers will visit ONLY the classroom to which they are assigned. Handlers may NOT start visiting new classes unless approval has been granted by the Nor'wester organization.
- ❖ Two or three visits are usually necessary before things start to run smoothly. If you have questions, need ideas, or assistance, please contact one of the Directors.

Updated March 2018

Nor'wester Therapy Dog teams are privileged to be invited into the classroom, and it is a privilege for the schools to benefit from the impact of therapy dogs working with students. We are working in a wonderful environment of mutual respect where we will develop heartwarming relationships with both staff members and students. We are facilitators of the interaction between our dogs and the students.
